

Join! 4th INTERNATIONAL SUMMER SCHOOL ON MARINE ECOTOXICOLOGY

WHEN

September
21st–25th, 2026

WHERE

Stazione Zoologica Anton Dohrn

Villa Comunale,
Naples (Italy)

INTENDED FOR

Thesis and PhD students,
researchers and professionals
in marine biology, ecotoxicology,
and environmental monitoring

APPLY THROUGH THE WEBSITE:

 <https://ssmarineecotoxicology.wixsite.com/summer-2026>

KEY OBJECTIVES

- ✓ Deepen knowledge in marine environmental contaminants
- ✓ Explore how they affect biological systems
- ✓ Advanced training in methods and approaches for their investigation: standardized and innovative ecotoxicity tests in a variety of marine organisms
- ✓ Get insight in regulatory aspects about quality and risk assessment in marine environments
- ✓ Networking

*The course program will integrate
theoretical lectures
with practical sessions*

Under the patronage
